

# The Growth Partner Programme

---

*The Growth Partner Programme shows ambitious entrepreneurs how to scale their business faster and more effectively.*

The Programme is open to ambitious business owners of companies turning over £500k or more. The Programme, beyond providing you with theoretical knowledge, will provide practical, implementable tools and an allow you to develop an effective strategy to grow your business faster. **Our ambition is that each participant should feel that their business is worth 20% more as a result of attending the Programme.**

## **What you get:**

- Four intensive one-day group sessions (one day per quarter)
- Unique tools developed specifically for the GP Programme
- Coaching in-between sessions to encourage implementation
- We cover the building blocks – the key areas that you need to get right to scale fast.

## **Course Structure**

The Programme runs over a one-year period, with a one-day session every quarter in a small group of similarly ambitious business owners. Each one-day session starts at 8am, and runs until 6pm, and will cover a core element of the growth programme: architecture and management, positioning, measurement and communications, and risk and resource. You will be expected to implement changes in your business in the three months between sessions in order to build on each step and give an update on your progress every quarter.

## **Growth Partner Programme Experts**

As founder of The Supper Club, Duncan Cheatle has a unique perspective on how the fastest-growing businesses achieve sustained growth. He's worked with over 1000 entrepreneurs and personally chaired over 400 round-table forums. Duncan will facilitate the programme and guide you through each core sessions using working examples. He and one of his team will be available between sessions for one-on-one support in implementing what is learnt.

**Programme costs: £4,500 (ex VAT) per person**

**We are so confident of the value we provide that we offer a full money-back guarantee on all our courses**
